

SoftExpert Excellence Suite
The roadmap for excellence.

The most comprehensive integrated enterprise software for Compliance and Business Excellence.

The SoftExpert Excellence Suite is the most comprehensive integrated enterprise software for Compliance and Business Excellence.

The SoftExpert Excellence Suite (SE Suite) offers a set of multilingual modules that are natively integrated and fully Web-based to automate the processes required to improve and optimize the different business areas at organizations, boosting quality of management, cutting operating costs and facilitating compliance with the main market standards and regulations.

SE Suite also complements and optimizes Enterprise Resource Planning systems. The suite is integrated with the main ERP systems on the market through already available connectors, or through customized connectors developed based on the client's specific needs.

Benefits

► Reduce costs

Reduce the need for user training, eliminate additional costs associated with the integration and maintenance of different applications, streamline the implementation of process improvements and even meet the main regulatory compliances. With SE Suite integrated platform you do not need to acquire and maintain a different software application for each improvement and process need in different areas of the organization.

► Improve processes

Offering an extensive set of multilingual modules that are natively integrated and fully web-based, the solution automates the main processes required to improve and optimize the different business areas within organizations, boosting the quality of management, cutting operating costs and enabling compliance with the main market norms and regulations.

Enterprise Business Excellence Platform

The SoftExpert Excellence Suite [SE Suite] solution consists of a set of integrated modules that improve business management processes in a collaborative fashion in order to provide the necessary support for improvements and continuous optimizations required by enterprise environments.

Benefits

► Meet regulations

Companies are subject to an increasing variety of standards and regulations. In today's competitive environment and new economic reality, the challenge lies in ensuring compliance without losing site of maximized results. SE Suite allows your company to streamline its operations, cut costs and improve management when complying with multiple regulations, policies and standards, transforming mere compliance into an actual competitive edge for your company.

► Complement your ERP

The SE Suite corporate solution complements and optimizes ERP utilization supporting business processes where needs are not fully met by enterprise management systems. The suite is integrated with the main ERP systems on the market through a set of connectors that are ready to use or developed based on your organization's specific needs.
